RE: Rescission of Stop Work Order for OU 1

Dear Mr. Hartman:

The purpose of this letter is to rescind the work stoppage, effective immediately, on the baseline risk assessment at operable unit (OU) 1, per the proposed amendment to Part 24, Work Stoppage, of the IAG contained in the resolution of the dispute invoked by DOE on September 24, 1993.

This work stoppage was agreed to by all parties on August 18, 1993 (Ref: 8HWM-FF) in response to the DOE's request of July 21, 1993 (Ref: 93-DOE-08449) for work stoppage on baseline risk assessments at OUs 1 through 7.

This work stoppage is rescinded for OU 1 because the issues regarding methodology for the baseline risk assessment and preparation of the RFI/RI Report, as outlined in the Stop Work Order, do not impact OU 1. In addition, staff level personnel at all agencies support lifting the work stoppage for OU 1.

If you concur with this request to restart all work on OU 1 please sign the concurrence line and return copies of this letter to EPA and CDH within five (5) business days.

If you have any questions, please contact Gary Baughman (CDH) at 692-3338 or Martin Hestmark (EPA) at 294-1134.

Sincerely,

  
Joan Sowinski, Manager  
Hazardous Waste Control Program  
Colorado Department of Health

  
Robert L. Duprey, Director  
Hazardous Waste Management Division  
Environmental Protection Agency

### CONCURRENCE LINE

  
James K. Hartman  
Assistant Manager for Transition  
and Environmental Restoration  
Rocky Flats Plant
